

Problem Set 6

Caleb Reid

March 24, 2026

I grabbed Rainbow Six Siege data from Kaggle. I am interested in the data because I like playing and watching R6 Siege, and I enjoy looking at stats. The data was supplied by Ubisoft and therefore was pre-cleaned. I examined the data using ggplot2 and gt packages in RStudio.

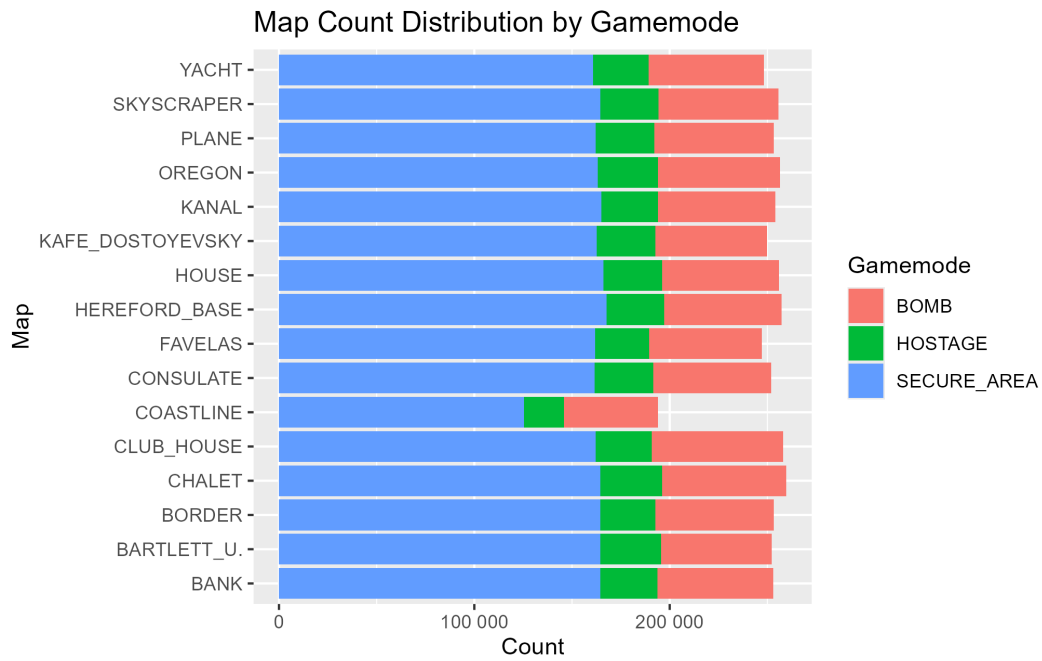

Figure 1: PS6a Figure

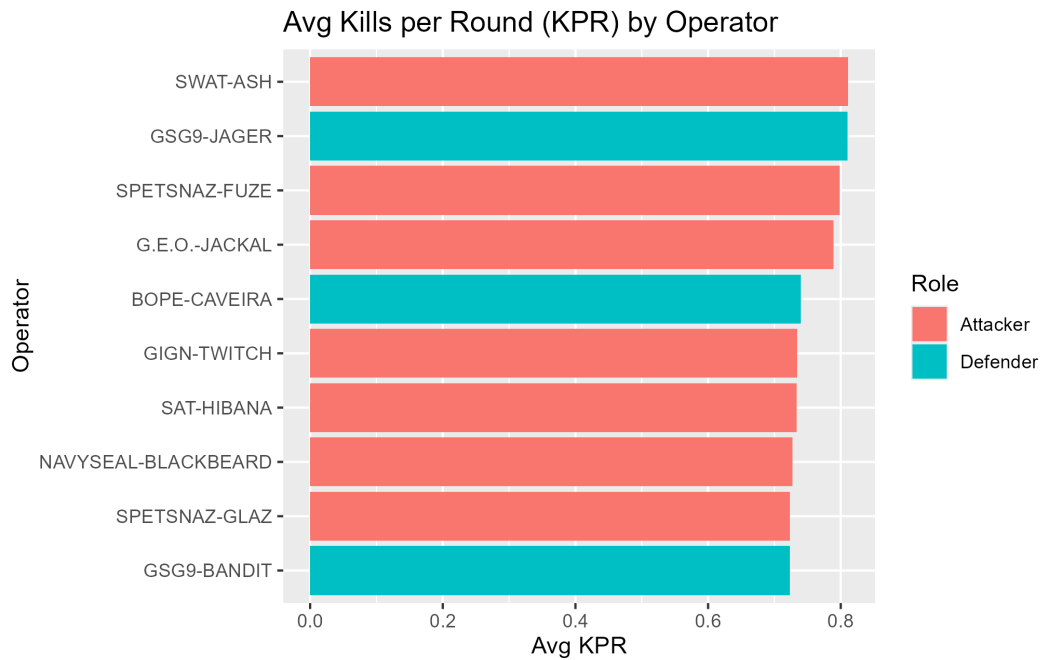

Figure 2: PS6b Figure

	Rounds Played	Average Clearance Level
Diamond	1161	189
Platinum	22917	143
Gold	63673	105
Silver	50042	80
Bronze	25154	67
Unranked	50442	66
Copper	8939	60
